Conflex Incorporated moves to larger state of the art manufacturing facility for production of shrink wrapper line.

Milwaukee, WI (August 26, 2003) – Conflex Incorporated has moved it’s manufacturing operations for shrink wrapping equipment to a new state of the art manufacturing facility in Germantown, WI. The brand new facility located in the Milwaukee suburb allows Conflex to enjoy a sizeable skilled work force while tripling the size of its previous location. “Starting with a blank sheet of paper has allowed us to incorporate the best of our manufacturing concepts for efficiencies and an enjoyable work environment” says Bill Morrissey jr, Director of Operations.

Known for speed, efficiency and reliability, Conflex has offered precision-engineered shrink packaging equipment for the last 15 years. Conflex shrink packaging equipment includes an extensive selection of automatic L-sealers and a full line of form/fill/seal equipment. Keeping its equipment designs simple and easy to maintain, Conflex equipment includes the E-series automatic L-bar sealers, the CW-160 series of horizontal form/fill/seal wrappers, the Servo-Flex 160 reciprocating head form/fill/seal wrapper, and the AdvantEdge™ 160 side seal shrink wrapper.

About Conflex Inc.

Milwaukee, Wis.-based Conflex Inc. was established in 1988 and quickly became one of the largest suppliers of automatic L-bar sealers in the United States. Over the past fifteen years, Conflex has expanded its product line to include high-speed form/fill/seal equipment that is simple in design and easy to maintain. Conflex shrink packaging equipment is distributed exclusively through Sealed Air Corporation’s Shrink Packaging Division. For more information visit the Conflex web site at www.conflex.com
