

Conflex Conveyor Series

Urethane Belt

Modular High Density Plastic Link Belt

Minimum Pressure Roller Conveyor

MADE IN USA

High Performance Automatic Shrink Packaging Systems

Conflex Conveyor Series

Configurable Conveyor Solutions:

The Conflex Conveyor Series is designed to easily integrate with our packaging equipment, but is flexible enough to handle most stand-alone conveying applications. The modular industrial design of the Conveyor Series allows it to be built in standard or customizable configurations. These flexible systems are designed to increase productivity and optimize your production lines.

Available in a variety of Product Transport Configurations

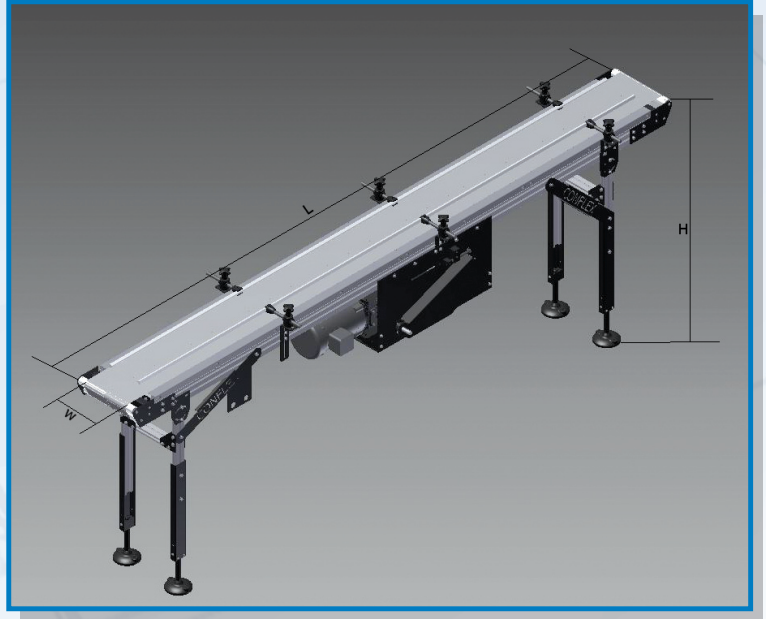

- Modular High Density Plastic Link Chain
- Urethane Belt
- Minimum Pressure Roller Conveyor

Highly Efficient...and Flexible Configurations Available:

- AC or DC Variable Speed Drives
- Center Drive or End Drive
- Parallel Shaft Mounts
- Light Duty, Standard Duty or Heavy Duty Ratings available to accommodate all product loads

Conveyor Types Available:

- Standard Variable Speed
